HOOFLAND'S GERMAN BITTERS.

AND

Hoofland's German Tonic.

THE GREAT REMEDIES
FOR ALL DISEASES OF
THE LIVER, STOMACH, OR DIGESTIVE ORGANS.

HOOFLAND'S GERMAN BITTERS

Is composed of the pure juices (or, as they are medically termed, *Extracts*) of Roots, Herbs, and Barks, making a preparation, highly concentrated, and entirely *free from alcoholic admixtures of any kind.*

HOOFLAND'S GERMAN TONIC

Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public.

Those preferring a Medicine free from Alcoholic admixture, will use

Hoofland's German Bitters.

Those who have no objection to the combination of the Bitters, as stated, will use

Hoofland's German Tonic.

They are both equally good, and contain the same medical virtues, the choice between the two being a mere matter of taste, the Tonic being the most palatable.

The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:

CONSTIPATION, FLATULENCE, INWARD BLIND, FULNESS OR BLOOD TO THE HEAD, ACIDITY OF THE STOMACH, NAUSEA, HEART-BURN, DISGUST FOR FOOD, FULLNESS OR WEIGHT IN THE STOMACH, SOUR ERUCTATIONS, SINKING OR FLUTTERING AT THE PIT OF THE STOMACH, SWIMMING OF THE HEAD, HURRIED OR DIFFICULT BREATHING, FLUTTERING AT THE HEART, CHOKING OR SUFFOCATING SENSATIONS WHEN IN A LYING POSTURE, DIMNESS OF VISION, DOTS OR WEBS BEFORE THE SIGHT, DULL PAIN IN THE HEAD, DEFICIENCY OF PERSPIRATION, YELLOWNESS OF THE SKIN AND EYES, PAIN IN THE SIDE, BACK, CHEST, LIMBS, ETC., SUDDEN FLUSHES OF HEAT, BURNING IN THE FLESH, CONSTANT IMAGININGS OF EVIL, AND GREAT DEPRESSION OF SPIRITS.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses merit, is skillfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit those well-known remedies—

HOOFLAND'S GERMAN BITTERS
AND
HOOFLAND'S GERMAN TONIC.

PREPARED BY *DR. C. M. JACKSON,*
PHILADELPHIA, PA.

Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.

These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Disease of the Kidneys, and all Diseases arising from a Disordered Liver, Stomach, or Intestines.

DEBILITY,

Resulting from any Cause whatever; PROSTRATION OF THE SYSTEM, Induced by Severe Labors, Hardships, Exposures, Fevers, &c.

There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE,

And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC an elixir that will instil new life into the veins, restore the long-lost energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.

NOTICE.

It is a well-established fact that fully one-half of the female portion of our population are seldom in the enjoyment of good health; or, to use their own expression, "never feel well." They are languid, devoid of all energy, extremely nervous, and have no appetite.

To this class of persons the BITTERS, or the TONIC, is especially recommended.

WEAK & DELICATE CHILDREN

Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.

Thousands of certificates have accumulated in the hands of the proprietors, but space will allow of the publication of but few. Those, it will be observed, are men of note and of such standing that they must be believed.

TESTIMONIALS.

Hon. Geo. W. Woodward,

Chief Justice of the Supreme Court of Pa., writes:

Philadelphia, March 16, 1867.

"I find 'Hoofland's German Bitters' is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility, and want of nervous action in the system. Yours truly,

GEO. W. WOODWARD."

Hon. James Thompson,

Judge of the Supreme Court of Pennsylvania.

Philadelphia, April 28, 1866.

"I consider 'Hoofland's German Bitters' a *valuable medicine* in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,

JAMES THOMPSON."

From Rev. Joseph H. Kennard, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full belief that, *for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation.* In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eighth, below Coates St.

From Rev. E. D. Fendall,

Assistant Editor Christian Chronicle, Philada.

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from derangement from derangement of the liver. Yours truly,

E. D. FENDALL.

CAUTION.

ESTEY'S CELEBRATED
COTTAGE, HARMONIC AND BOUDOIR
ORGANS.

These Instruments stand unrivalled by any thing found in this country or in Europe, as to quality of all important parts. Having the eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others, for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and critic test of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Organs. Call and test this tempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but will be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin, it exactly changes the reed tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with Independent reeds. Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of fifteen times the cost.

All instruments warranted for five years.

☞BRASS BANDS supplied with instruments and music at reasonable rates.

A liberal discount allowed for Churches and Sabbath Schools.

☞Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, and all so popularly and rationally cleansing as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it offers a safer remedy for them. All need to know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands of certificates of the truly remarkable cures of the following complaints, but such cures are known in every neighborhood, and we think it hardly necessary to append to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, when they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green sickness**, **Bilious Colic** or **Cholera**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Worms** in the human system, a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

FRIDAY, DEC. 4, 1868.

THE RE-ASSEMBLING OF CONGRESS.—The two houses of Congress will re-assemble in the National Capitol on Monday next. It will be the last session of the Fortieth Congress, and its constitutional term will cease at noon on the 4th of March next, when the Forty-first Congress will immediately take its place, under a recent law, in order to be ready for the exigencies of the incoming administration. We suppose that on that occasion the two houses will await the inauguration of Grant and Colfax as President and Vice President, and that then, after a formal organization, a joint committee will be sent to President Grant to report progress and inform him the two Houses are ready to receive any communication he may have to make. Thereupon, in addition to the usual inaugural address, we may look for a message to Congress foreshadowing the general policy of General Grant. In the meantime, however, we may expect from President Johnson, on the re-assembling of Congress, a pretty extensive and comprehensive message.

AFTER THE ELECTION.—Since the election, Radical papers urge Congress to force negro suffrage upon all the States. Why didn't they advocate this doctrine during the campaign, and thus make it an issue before the people? We know the reason—neither they nor their party dared do it.

As Radical Missouri has just rejected negro suffrage by an overwhelming majority, would it be right in Congress to compel that State to do what her people have so solemnly and emphatically declared they do not want?

Besides, do these Radical editors so lawlessly forget that the Chicago platform, upon which Grant was nominated and elected, declared that the "question of suffrage in all the loyal States belongs to the people of those States?"

Will To violate this pledge now would be not only be brazenly dishonest, but a gross outrage of the most gross and intolerable character upon the rights of the States and the people.

THE INEQUALITY OF REPRESENTATION.—The inequality and injustice of the apportionment of members of the Legislature of this State is seen wherever we look. Luzerne county polls 750 more votes than Lancaster. Yet Luzerne has one Senator and three Assemblymen, while Lancaster has two Senators and four Assemblymen. Luzerne is a Democratic and Lancaster Radical. That is why so unjust a distinction is made. Lancaster is a Congressional district, and another county is added to it—Luzerne. In this we have another exhibition of the palpable unfairness of the present apportionment, by which the will of the people is defeated.

SOME negroes in Washington had a meeting in that city on Thanksgiving night to consult about laying the corner stone of a Church. While the colored brethren debated the subject for a while, the contest of words grew warm, the participators came to blows, nearly a hundred were speedily engaged in a regular fight, the police had to be called in, and the casualties were one negro killed outright and quite a number severely injured. One of the officers was badly hurt and another slightly, before the belligerent Jack christians were reduced to order. The negroes vote and hold offices in Washington. "Let us have peace."

THE Radicals have a new candidate for U. S. Senator. It is now announced that J. Edgar Thompson, Esq., President of the Pennsylvania Railroad Company, has the inside track. If Mr. Thos. A. Scott is in favor of the project, and will visit Harrisburg, and stay long enough to become personally acquainted with the Republican members, we are inclined to believe he can *convince* the most committed man among them that Mr. Thompson is just the man for U. S. Senator.

A GREAT indignation is expressed toward C. A. Washburne, American minister to Paraguay, for permitting two Americans attached to his embassy to be arrested and imprisoned by Lopez. He has left the country and abandoned them to their fate. It is only necessary to say that he is a Radical, and values the freedom of a negro more than that of a white man, to explain his conduct.

IN Mobile the other day the lawyers and other officers attached to the United States District Court assembled, but no Judge was present. The notorious and miserably corrupt wretch, Dick Busteed, was detained at Washington to answer serious charges which have been made against him. Lincoln gave some queer specimens of Judges to Southern Courts, and Dick Busteed was one of them.

GEN. GRANT'S CABINET.—Gen. Grant recently expressed to an army friend his utter contempt of the politicians who are urging their own merits as office-holders on him. He said that he would make up his Cabinet after he had received a certificate of election, and then no one would know whom he had decided upon until their names got into print.

THE Radicals are puzzled to know how they are to frame an amendment to the Constitution of the United States that will reach the negroes, and yet leave out the Indians and the Chinese. All these classes are *colored*, the term used by the fanatics because they all know how distasteful the word *negro* is.

COL. GEO. R. WIESTLING, a prominent Radical politician of Franklin county, is out in a manifesto denouncing the editors of the Franklin *Repository* and their abettors in the conspiracy by which the Radical Congressional conferees from that county were carried for John Cessna.

THE question of doubling the number of cadets at West Point is being agitated in Radical circles. Who wants more military officers? We have enough of men who have been invited to officer all the soldiers we are likely to employ for years to come.

RADICAL capitalists and manufacturers have taken advantage of their success at the polls, by reducing the wages of labor and advancing the prices of merchandise, and the necessaries of life.

THE Electoral Colleges met at their several State Capitols last Wednesday, and cast their votes for President and Vice President of the United States.

WILL THE REPUBLICAN PARTY SPLIT?

Not, we suppose, until after General Grant has selected his Cabinet and bestowed his other patronage. His characteristic reticence will prevent an early germination of the seeds of schism which are plentifully buried in the Republican soil.

General Grant was not, as everybody knows, the spontaneous choice of the Radical or stronger wing of the party. The so-called conservative Republicans began to push his claims early last year. They were met by a resolute opposition from the Radicals, led by the *Tribune*, which assailed his pretensions with scornful ridicule. General Grant's supporters desired, and were charged with covertly aiding, the defeat of the party in the State elections of last year; expecting, by such tactics, to bring the Radicals to perceive that unless they did, the Democrats would take him up, and, with the aid of his early Republican supporters, elect him. This management was successful. The Radicals were compelled, to make a virtue of necessity. They where fain to be satisfied with very slender proofs that General Grant was a Republican. His complicity in the restoration of Stanton was their strongest, almost their only evidence that Grant was with them. The fact that it was their fears, and not their will, that consented to his nomination, will make a quarrel easy, if they should find that they cannot control him. His sympathies and gratitude go more naturally with the section of the party that forced his nomination.

Besides these historical grounds of distrust, there is a disconformity of mental organization between the staid, phlegmatic, taciturn, prattical General Grant, and the ardent, excitable, vehement, demonstrative, visionary Radicals and agitators. Minds so differently constituted do not view things in the same light, or reach the same evidence. So far as General Grant follows his own cool, practical, unenthusiastic judgment, he will be likely to diverge from the hot, impatient, vindictive, extravagant Radicals. This incompatibility will call differences to arise easily, and to grow rapidly when they begin, unless there should be a remarkable spirit of mutual indulgence and accommodation. As General Grant has yielded but little to secure his election, he may be inclined to yield still less and have his own way now that he is secure of his office.

The latest project of the Radicals—that of depriving the States of their control of the suffrage—is inconsistent with General Grant's letter of acceptance. The most memorable thing in that letter was its famous entreaty, "Let us have peace." He could not have meant by this a cessation of hostilities, for since his capture of Lee there have been none. If he had *any* meaning, it must have been that the interests of the country require a cessation of the everlasting agitation about the rights of the negro. That language pledged him—if it pledged him to anything—to maintain the *status quo*; to discountenance the introduction of new topics of dispute. Taking the regulation of the suffrage away from the States and giving it to the Federal Government for the benefit of the negroes, would be a new fire-brand of controversy; and if General Grant's desire for "peace" is sincere and genuine, he will be obliged to oppose it. He will have no opportunity to break with the Radicals on this question, for he will not yet be in office when Congress passes the resolution; but they will take his failure to indorse it as a sign of his secret hostility, and will distrust him accordingly.

The question of raising his salary may disclose to him who are his secret enemies in his own party, in advance of his Inauguration. The project starts with the *Tyng*, the foremost advocate of his nomination previous to the election of last year. It is objected to by the *Tribune*, the foremost of his early opponents. We cannot believe that it will pass Congress; but it may serve the purpose of indicating to General Grant his concealed enemies. For aught we know that may be the chief object of the proposal. The applicants for office will be so much more numerous than the offices, that there is a strong temptation both to court General Grant's favor, and to excite his prejudices against rival claimants.

General Butler owes to the new President no kindness, and will be a thorn in his side. He will be always on the alert to find things that can be turned to General Grant's disadvantage; and if his sharp observation discovers that the Radicals are dissatisfied, he will be the leader of the sore-headed. He is by nature busy, facilous, revengeful, cunning, audacious; and as soon as it is seen in what channel the stream of patronage is to flow, he will have no difficulty in finding coadjutors in a factious bearing towards the new administration.

The Democratic party, in the meanwhile, will maintain its discipline, and wait and watch.—*World.*

NOT A PARTY VICTORY.—The Springfield, Mass., *Republican*, of a late date, says: "The result of the recent election, though it was all the Republicans could have asked, *was not a triumph of the Republican party as a distinctive organization.* * * * And if the victory was not achieved by the Republican party, as a political organization in its own strength and by the prestige of its name, *no more does it give that party, as an organization, a new lease of power.* * * * * *The result of the election does not indicate a popular approval even of the general policy of Congress. The election was carried in spite of that policy.* Had that simple issue been presented, we very much fear every one of the four Middle States would have pronounced against it."

A WASHINGTON correspondent intimates that Simon Cameron is likely to be made Secretary of the Treasury under Grant. God save the mark!—What an appointment that would be! The man who laid the foundation of his fortune by palming off Middletown bank notes upon the Winnebago Indians—the man whom Lincoln had to turn out of the War Department to stop the wholesale plunder of the public treasury—the man whom Thaddeus Stevens described in his grimly humorous way by declaring he "*would not steal a red hot stove*"—such a man for Secretary of the Treasury. "Angels and ministers of grace defend us."—*Lancaster Intelligencer.*

HAD Horatio Seymour been elected President, would the Radicals have proposed to increase his salary to $100,000 per year? Not a bit of it!

FORT LAFAYETTE, in New York harbor, was destroyed by fire on Tuesday last. The fire is supposed to have originated through accident.

NEGRO SUFFRAGE.

The Harrisburg *Telegraph* and the Lancaster *Express* are both out in long editorials advocating the infamous scheme of forcing negro suffrage upon the people of Pennsylvania, by the joint action of an expiring Congress and State Legislatures elected without authority to decide such a question. We insist upon it that this outrage shall not be perpetrated.

Let the question be submitted to the people at the next election for members of the Legislature. If the members elect should dare to force it upon the people of this State, without their consent, they will dig their political graves, and consign the Republican party to destruction. A storm of popular indignation will be excited such as was never witnessed in Pennsylvania before. The Republican party would lose five white votes for every negro vote thus gained. Common political prudence would seem to demand the submission of the question of negro suffrage to the people of every State. Let it be done. Let the people, without respect to party, demand that it be done. Let petitions be circulated in every township; and let all conservative Republicans unite with the Democrats in a demand that the question be submitted to the people for their decision at the ballot box.—*Lancaster Intelligencer.*

COLORED REPRESENTATIVE.—There is, after all, a chance that a colored representative may have a seat in the Fortieth Congress. By the rejection of the returns of certain parishes in Louisiana, Menard, a negro, is declared elected to fill the unexpired term of Mann, Democrat, deceased. Menard will get the certificate, which will be *prima facie* evidence of his right to be Mann's successor, and he must be admitted to the seat, and Hunt, Democrat, who is defeated by the rejection of the returns, will have a chance to contest Menard's seat. But the original certificate of Colonel Mann having been contested by one Simon Jones, Republican, both Menard and Hunt will be ousted if Jones is successful. If not, then, provided things are done in the usual way, Menard is the sitting member by virtue of the certificate, and Hunt is the contestant. But things may not be done in the usual way. To admit Menard involves the recognition of the legality of the late election. Hence, there may or may not be a colored gentleman in the Fortieth Congress. Altogether, it is a very curiously complicated case, and involves at least half a dozen questions, including one of color.—*Wash. Express, November 30.*

It is generally conceded that "the times are hard," and that before the winter closes they will be "more so." The "good time coming" when the Radical President was elected, has not yet made its appearance, and the indications are that it will not "set in" until the people have experienced more suffering and distress. Why is this? The Radicals promised all kinds of pleasant and agreeable things if they secured a new lease of power. Now that they have been successful, let us begin to have some of the benefits and blessings freely promised before the election.

MURDER OF H RIVES POLLARD.—A despatch from Richmond, Va., Nov. 24th, says: On Saturday a report was published in the *Southern Opinion*, relative to the elopement of a daughter of A. M. H. Grant, a wealthy tobacconist of this city. This morning about ten o'clock, as H. Rives Pollard, the editor of the *Opinion*, was near his office door, at the corner of Main and Fourteenth streets, and going in, a shot was fired from an upper window of a building opposite, and Mr. Pollard fell dead, eleven buckshot having entered his body and one passing through the heart. The Police searched the building and found James Grant, a brother of the lady named, in a room. He surrendered himself and was taken to the station-house. A double barreled gun with one barrel discharged, was found in the room. The affair creates great excitement here, and a large crowd has been gathered around the *Opinion* office since its occurrence.

—Grant has been admitted to bail in $10,000.

THE extreme Radicals are trying to manufacture a public opinion favorable to another impeachment of President Johnson before the 4th of March, so that old Ben Wade may be put in the Presidential chair long enough to fill all the offices. This has become necessary inasmuch as the course of Grant is not satisfactory, and it is thought much safer to fill the offices before he is inaugurated.

"A SCARECROW has been invented at Slabville, down East, of so hideous a character that the crows in the neighborhood are busily engaged in bringing back the corn they stole last summer."—*Exchange.*

Could a similar invention, applicable to human depredators, be stuck up at Washington, the Radical whiskey thieves, army contractors, shoddy jobbers, and general plunderers, would at once bring back enough to pay off the national debt with a large surplus in the treasury for distribution among the States.

A HARD HEARTED OLD DEMOCRAT.—A few nights since a small party were assembled in General Grant's parlor, among them Mr. Dent, his father-in-law, who lives in Missouri. Some one asked him how Missouri had voted. The old man said: "She gives Grant ten thousand majority, but I'll be d——d if he got my vote!" The General himself roared with laughter at the reply. Mr. Dent is justly proud of his Democracy.—*Exchange.*

DEMOCRATIC VICTORY.—Hon. A. Oakey Hall, Democrat, was elected Mayor of New York by 54,094, on Tuesday. The Radical candidate had only 20,000 votes. Hon Richard O'Gorman, Democrat, was elected Corporation Counsel by 53,539. The Radicals tried to make a show of strength, but failed badly.

The Democrats, the same day, also carried Hudson, N. J., by a large majority.

Before the election, Radical editors and speakers claimed that their party favored economy. Now that Grant is elected they propose to increase his salary as President from $25,000 to $100,000 per year. Does this look like economy?

MEMPHIS, Nov. 29.—Last Friday, while a girl named Kennedy was passing through the woods, she was siezed by a negro, and horribly violated.—Next morning he was found by the citizens, and identified by the child. He was taken to the scene of violence and hanged.

FOR THE COMPILER.

AFTER a few weeks' recreation, the elephant has emerged from his den with a batch of falsehoods to justify the disgraceful conduct of the colored sympathizers at East Berlin on the night of the 2d of November. "Captain Whiskey" is evidently a "dead duck" in the pond, acknowledging his inability to change his base of operations from that of a pugilistic combatant to the writer of a newspaper article, and therefore calls in one of his "aids" to do the necessary work. But what have they brought forth? They have exposed themselves, beyond escape, by the acknowledgment that the demonstrations of '63 and '66 were sufficient justification for the numerous invitations extended—no doubt calculating to collect together a sufficient number of "Plugs" to brow-beat and gag all those opposed to the colored programme. After these glaring declarations, no judge or jury, even the most ignorant wooly head, would hesitate to fix the guilty intent where it belongs.

"Nor is it deemed necessary to reply to a scurrilous remark in regard to a respected citizen," says the *Star's* correspondent. Oh, no!—and yet in the same breath he descends to the lowest scurrility himself. He cannot thus extricate his "Jeffersonian" friend, nor put himself in a good position by declarations of stern devotion to the "dear old flag." It was quite an ardent a Radical as he who wrote—

"Tear down the flaunting lie,
Half-mast the starry flag,
Insult no sunny sky
With hate's polluted rag."

It would require very little historical knowledge to get at the political standing of the gentleman's ancestors during the days of the Hartford Convention, which body was engaged in throwing out blue lights as a signal to a foreign foe. Nor will any one dispute the honor due for supporting assumed "military necessities," viz: John Brown's raid, Lincoln's bastiles, Mrs. Surratt's murder, and a host of other outrages perpetrated in the interest of the "God and morality party."

GRANT'S official majority in California is 506. Owing to an informality in printing the name of Hoffman, one of the Republican Electors, it is stated the Secretary of State refuses to certify his election, thus giving the Democrats an Elector. The matter will be submitted to the Supreme Court. Some $2,000,000 (stakes) depend upon the decision. Democrats claim the bets unless the electoral vote is unanimous for Grant and Colfax.

RICHMOND, Va., November 30.—This morning, in the United States Circuit Court, Robert Ould, counsel for Jefferson Davis, made a motion to quash the indictment against Davis, on the ground that the fourteenth amendment prescribes the mode of punishment for participation in rebellion, which is disfranchisement; and no other punishment is prescribed. The prosecuting attorney moved to postpone the motion until the latter part of the term. Chief Justice Chase decided to hear the argument on the motion on Thursday next.

THE Boston Post says that, though the President-elect may not be the best contrived mansion that could be built for a clean and virtuous life, a great many respectable families are always anxious to occupy it, notwithstanding its inconveniences.

Local Department.

FROM COUNTY AND SURROUNDING COUNTIES.

Bridge Granted.—The Grand Jury, last week, granted a Bridge across the Conowago on the road leading from Center Mills to Hunterstown.

Lecture.—Don't forget that Rev. Dr. Morris, of Baltimore, will lecture in Agricultural Hall this evening. Subject—"How to Read," *with illustrations.* An unusually interesting entertainment may be expected. Dr. Morris, always an engaging lecturer, will be found peculiarly at home in the subject announced for to-night.

We take the liberty of hinting to him that his audience will expect a goodly number of "illustrations." There is a very decided, and laudable, "hankering" in this community that way—and few, if any, can gratify it to a more general extent than he.

Lecture.—George Alfred Townsend will lecture in Agricultural Hall on the evening of the 15th—at the Invitation of the College Societies. Subject—"The Pennsylvania Dutch." The papers speak of the lecture as decidedly mirth-provoking.

Lecture.—Prof. George H. Miles will deliver a Lecture in St. Vincent's Hall, Emmittsburg, on Thursday evening next, on "The Influence of Neatness and Beauty over the Growth of Towns"—for the benefit of St. Vincent's Library. We bespeak a full house. All who miss it will miss a rare intellectual treat.

New Director.—On the first Monday in November, Benjamin Deardorff, Esq., took his seat in the board of Directors of the Poor. Mr. Nunemaker went out, his term having expired. The latter made a valuable officer in all respects, and we are quite certain that Mr. D. will prove to be the same.

The New Prothonotary.—Jacob Melhorn, Esq., was sworn in and entered upon his duties as Prothonotary on Tuesday. He at once took his place in Court, and got along so well as to lead strangers to suppose he was an old hand at it.

Confirmation.—Bishop Shanahan, of the Diocese of Harrisburg, was here last Sunday, and administered confirmation to fifty-one persons in St. Francis Xavier's Church—assisted by the pastor, Rev. J. A. Boll. He also confirmed thirty-two in St. Ignatius's Church, in Buchanan Valley, on Monday morning, and twenty at Fairfield in the afternoon.

The new Bishop made a very favorable impression, and bids fair for a long course of usefulness in his church. He is a thorough scholar, a fine speaker, and has high administrative abilities.

Calendar Cards.—We are prepared to print Calendars for the year 1869, with Business Cards attached. They are done either on card-board or paper, in one or a variety of colors. They are not only attractive because showy, but useful for daily reference throughout the year—and hence doubly valuable to those who avail themselves of this means of advertising. That the COMPILER office will do them neatly is guaranteed by the very handsome work constantly turned out. Send in your orders. Rates always reasonable.

Horse Thieves Caught.—On Monday night, about 11 o'clock, as several members of Jacob Plank's family, in Highland township, were returning from "spelling school" in the neighborhood, they found two strange horses tied in the lane. Suspecting something wrong, and hearing a noise in the barn, they went in, and discovered two strangers in the act of stealing oats. The thieves were at once "captured," and taken to the house, where they were kept under close guard until some one came to town to advise officer Bonner of the arrest. He promptly went out, and in the morning the thieves were brought in; and taken before Esquire Cover, they were committed for the larceny of the oats.

One of them gave his name as Wm. H. Mangum, from Georgetown, (formerly from Canada,) and the other as John M. Longabaugh, from Juniata county. Their stories, however, differed considerably, and no doubt was entertained that they were horse thieves—confessed, subsequently, by Longabaugh's disposition to turn "State's evidence."

In the evening, (Tuesday,) sure enough, handbills were received here describing the horses found in Plank's lane—one, a black, stolen from Abraham Heikes, in Newberry township, York county, and the other, a sorrel mare, stolen from Abraham Miller, in the same township—the former offering a reward of $25 and the latter $10. The horses were taken from the stables of these gentlemen on Saturday night.

We suppose that Mangum and Longabaugh will be first tried in York county for the stealing of the horses—after that here for the stealing of the oats.

Real Estate Sales—Joseph Barker has sold his hotel property, in Littlestown, to Levi Harner, at $9,000. We understand that G. B. Yantis, a first class landlord, will take possession of the hotel in the spring.

Nicholas Weaver has sold to David Bluebaugh a part of the old Presbyterian church lot, on Washington street, 90 feet front, for $800, on which Mr. B. is building a neat cottage. About two years ago Mr. W. purchased the whole lot at private sale from the church trustees at $800. He has since sold off less than one-half of it for $1,100.

Richard Crouse has exchanged his farm of 170 acres in Freedom township, for property of heirs of James Cunningham, deceased, in the same township, 10 acres with improvements—receiving $21 per acre for his farm, and paying $1,100 for the Cunningham property.

Jeremiah Culp has sold to Aaron Sheely, 3 lots of ground on corner of Liberty and East Middle streets, for $1,100 cash.

Susan Culp has sold to Jacob Eckert her house and lot on York street for $1,375 cash.

Jacob King has sold his Warehouse at Granite Station, on the Gettysburg Railroad, to E. Eckenrode, for $2,500.

John C. Zouck has purchased from George Arnold a two-story brick house, with lot, in New Oxford, at $3,600 cash.

Shepard Stammers has sold his farm, on the York turnpike, one mile from Gettysburg—97 acres, with improvements—to John Eckert, for $6,000.

Elected.—William M. Hersh, Esq., formerly of this county, has been elected President of the Pittsburgh and Birmingham Passenger Railroad Company.

Wanted.—A few rooms wanted to rent. Apply at the COMPILER office.

Court Proceedings.—We continue our report of Quarter Sessions cases tried last week:

Com. vs. Alexander Brashears.—Seduction, fornication and bastardy. Defendant not appearing, recognizance forfeited, to be respited upon his appearance at the January Sessions.

Com. vs Wm. E. and John King.—Assault and battery upon Joseph Orndorff, at singing school. Verdict guilty, and defendants sentenced to pay a fine of $5 each and the costs of prosecution.

Com. vs. Theodore Richards and Wm. Blumhamm.—Larceny of handsaw, plane, chisels, &c., from John Kretz. Verdict guilty as to Blumhamm—not guilty as to Richards. Blumhamm sentenced to the Eastern Penitentiary for one year and three months.

Com. vs. Theodore Richards and Wm. Blumhamm.—Larceny of flour, blanket, &c., from Jacob Baker. Verdict guilty, and defendants sentenced—Blumhamm five days to the County Jail, and Richards sixty days to same.

Com. vs. Theodore Richards and Wm. Blumhamm.—Larceny of oats and buggy whip from David P. Beitler. Verdict guilty, and defendants sentenced—Richards thirty days to the County Jail and Blumhamm one day to same.

Com. vs. Theodore Richards and Wm. Blumhamm.—Surety of the peace, on oath of Jeremiah Frazer. After hearing, complaint dismissed.

Court adjourned on Friday night; did not, of course, sit on Thanksgiving day.

Second Week.—The last Legislature passed an act requiring the November and January terms of the Courts of this county to commence on the fourth Monday of the month, and continue each two weeks. The second week, or week for civil business, commenced last Monday. The following cases have thus far been disposed of:

Levi D. Maus, surviving partner of Maus & Swope, vs. John Coshun.—Action of debt, on book account, for mackerel sold to wife of defendant, and for $50 lent her. The defence was that the defendant was in the army at the time, and did not authorize the loan, but that the money was paid her as part of a legacy due her by one of the partners, who is now dead. But the jury, from some conversation of the defendant, inferred a promise by the husband to pay it back. Verdict for plaintiff for $58 83. Motion for a new trial.

Samuel B. Miller and Lemuel Malaun, Executors of Benjamin Malaun, deceased, vs. Virginia Wilson, late Virginia Malaun, and Francis J. Wilson, her husband.—Debt on three notes under seal, and a book account against the wife, contracted before her marriage with Mr. Wilson. The defendant plead payment, and proved that she had paid and settled with Benjamin Malaun for them before his death, but did not lift the notes from Mr. Malaun, among whose papers they were found after his death. Verdict for defendant.

Christian Keckler and Mary his wife, in right of said Mary, vs. Philip Bittinger, and against John F. Houck, Executor of Jacob Fidler, deceased.—Ejectment for 3 acres and 167 perches of land. Plaintiff claims, under the will of Jacob Fidler, who devised her certain land, part of his farm. The Executor set apart for her use a portion of the farm, but excluded from the draft the land in dispute. As the will contained a "latent ambiguity," or imperfect description, the Court admitted the declarations of the testator made after the writing of the will, to locate the land. Jury out—Thursday afternoon.

Deer Shot.—Col. John H. McClellan, one day last week, brought to town a very fine deer, the result of a hunt in the South Mountain by himself and John Hall. The Col. has our thanks for a choice slice—from the "discussion" of which we conclude that Adams county venison is, like almost everything else grown in this region, "hard to beat."

—Messrs. David Stover and G. W. Irwin returned, the other day, from Juniata county, with two spike bucks, very large for their age, shot during a visit to a former neighbor, Mr. John Bennett.

Frederick and Pennsylvania Line Railroad.—The people of Frederick city and county, says the *Republican*, will be happy to learn that President Loats and a number of the board of directors of this contemplated road, with Mr. Haydon as civil engineer, started out on Tuesday for the purpose of making a preliminary observation for a survey of the route, and placing it under contract as speedily as possible. There is a deep interest felt in regard to this road, and we are told that Mr. L., as president, is determined to push it through.

Killed.—We understand that Absalom Conrad, of Menallen township, was killed about two weeks ago in Georgetown, D. C., in a fracas with a man whose name we have not heard. We have looked in vain in our exchanges for particulars of the sad event. Mr. Conrad belonged to the 21st Pennsylvania Cavalry, during the war, and had previously served three full enlistments in the regular army. He was on his way to Washington, to try to receive admission into the Government Institution for old "regulars," and, stopping at night in Georgetown, became involved in the controversy in which he lost his life. His father resides in this county.—*Star.*

Barn Burned.—On Wednesday afternoon last, the barn of Mr. Samuel Grasinger, three or four miles from town, in North Middletown township, was discovered to be on fire. The barn, together with the crops of hay and grain, was entirely consumed, though the live stock, gears and agricultural implements were saved. The building is supposed to have been set on fire by some vagrants who were seen prowling around that neighborhood a short time previous. There ought to be some more stringent law enacted, by which these prowling miscreants who infest our county may be kept away. Our farmers are at their mercy, and though they may treat all who pass that way with uniform kindness, yet they are subject to depredation, insult and outrage every day.—*Carlisle Volunteer.*

Hog Cholera.—We learn that Messrs. William Walhey, R. E. Elden, and others in Menallen township, have lost a number of Hogs this season from the disease known as "Hog Cholera."—*Star.*

Singing Schools.—The season for singing schools and debating societies is at hand. We advise all the young people to organize at once, and have a good winter pass-time.

The Columbia Bridge.—The U. S. Railroad *Register* states that the new bridge across the Susquehanna river at Columbia—built on the piers of the old bridge which was burned by the militia in June, 1863, on the appearance of the Confederates on the west bank of the river—will be in condition to be crossed by trains with locomotive power about the first of January. The distance from Philadelphia to York, all rail, will be 95 miles, or four hours' time; and the new schedule will be a very positive improvement over any arrangements hitherto possible between Philadelphia and York, owing to the fact that there has never been a locomotive crossing over the Susquehanna river between Columbia and Wrightsville, the old bridge being only available for horse-power to haul cars across it—a process beset with delay and with failure to connect on time.

From Philadelphia to Columbia, 81 miles, the railroad, built by the State, was opened with a single track as long ago as April, 1834—an early date in railroad annals. From Wrightsville to York, 13 miles, the road was opened in April, 1840, as part of the Wrightsville, York and Gettysburg Railroad—a project wisely conceived and intended to connect with the Baltimore and Ohio Railroad at Clear Spring, but never carried out, partly because of suspension of State appropriations for railroads, and so called "tapeworm" engineering.

In 1854 the York and Wrightsville Railroad was leased by the Northern Central Railway Company, which in turn was absorbed by the purchase of a majority share interest, to the system of roads operated by the Pennsylvania Railroad Co. York, therefore, which now has direct railroad communication south to Baltimore and Washington, and north and west via Harrisburg, will hereafter have equally good facilities east to Philadelphia. York is the thriving business and money centre of a large and important county (the "white rose," separated from the "red rose" of Lancaster by the Susquehanna river,) and contains about 15,000 inhabitants, having increased its population 75 per cent. since 1860.

York also needs more direct communication with Gettysburg, and will no doubt compass that desideratum, through co-operation of interests to be benefitted, since any one can appreciate at a glance the advantages which would accrue to York from a link of road to Oxford, which would open to York a region now tributary to Hanover and thence to Baltimore; at the same time putting York on an east and west route as she now is on a north and south route.

The southern border of Pennsylvania is a good country, and it is a matter of moment to Philadelphia to cultivate improved and extended communication with it.

Daring Robbery.—On Wednesday night some daring burglars forced an entrance into the merchant tailoring establishment of Mr. Lawrence Heil, on Carlisle street, below the Savings Bank, and rifled it of a large amount of valuable custom work which had just been finished—including a costly wedding suit for a young gentleman of our town. The night was a most favorable one for burglarious work, being very dark, and a heavy rain falling. This is decidedly the boldest robbery that has been committed in our town for a long time. No clue has been had to the perpetrators.—*Hanover Spectator.*

Large Fox Killed.—We learn that some of our town sportsmen, while engaged in fox hunting last week among the Pigeon Hills, killed a large red fox, which measured three feet nine inches from the tip of the tail to the head. It was the largest of the species ever killed in this section.—*Ib.*

Property Sold.—The property of Wm. H. Wannamaker, on East Market street, four acres of land with 14 brick houses thereon, was sold at Sheriff's sale on last Saturday for $7,100, J. McDowell Sharpe, purchaser.—*Chambersburg Spirit.*

Harrisburg Patriot.—The Harrisburg *Patriot*, now published by B. F. Meyers & Co., is one of the ablest and soundest Democratic papers in the State. To such as desire more than their county paper we commend the *Patriot*. Its terms for the ensuing year are: One copy, $2. In advance, $2 50 if paid within 6 months, and $3 if paid within the year; four copies $7, ten copies $15, twenty copies $27, fifty copies $40 50, fifty copies $62.50, and one hundred copies $100.00—with one copy in each case to getter up of club.

Godey's Lady's Book promises increased attractions for the coming year—for which see prospectus in another column. This old favorite still keeps the lead, and well it deserves to.

The Little Corporal makes its regular visits to our table, freighted with original matter for "boys and girls, and for older people who have young hearts." As a magazine for the "young folks," nothing could be more interesting. Published at Chicago, by Alfred L. Sewell, at $1 a year, or 10 cents for a single number.

Why he Didn't.—"Why don't you trade with me?" said a close-fisted tradesman to a friend, the other day. The reply was very characteristic: "You have never asked me, sir. I have looked all through the COMPILER for an invitation in the shape of an advertisement and found none. I never go where I am not invited."

The Farmers.—The farmers are about through with their fall work in this section. They are among the happy few laboring for a living, who have a season of rest. Alas! such is not the printer's fortune—to him comes no hour of rest in summer or winter, in sunshine or shade.

THE Dubuque (Iowa,) *Times* tells this story. A few day ago three maimed brothers from Minnesota crossed on the ferry-boat to this side. One had lost both arms and legs, and the other two both legs. They related to Commodore Yates the following fearful incident: Last winter, the three brothers started out to a singing-school, with three young ladies, in an ox-sled. While on the way a heavy snow storm came up and caused them to lose their way. After wandering about for hours they were finally "snowed in" on the prairie. Locked up in that snowy prison the three women froze to death, and the brothers were so badly frozen as to result in their present maimed condition.

FORNEY continues to write editorially by the yard to prove that Grant is "all right." This may be the case, but if it is, it ought not to take so much time and trouble to prove it.

Just from the City!—Theo. C. Norris has just returned from the city with a very large and *cheap* lot of Clothing, Hats, Caps, Boots, Shoes, and Gentlemen's Wear, of every description. He keeps nothing but gentlemen's wear, and persons in want of Over Coats, Dress Coats, Pants, Vests, Boots and Shoes, or under wear of any kind, can do better at Norris's than at any other store in the county. His stock of Hats and Caps cannot be beat outside of the cities.

Also a large stock of Cavalry Over Coats, Infantry Over Coats and Jackets on hand, just from the Q. M. Department, and warranted perfect. Persons in want of these goods had better call soon, as they are very scarce. Don't forget to call at Norris's Store. It

The Morning Glory.—Col. C. H. Buehler has received a large assortment of these famous base-burning Stoves, which on the score of economy, cleanliness, easy management, and general utility, stand unrivalled and defy competition. The great demand for them last season taxed the capacity of the manufacturers to meet the demand. They are much improved and will doubtless ere long take the place of all other stoves for parlor, office, store and shop. Call and look at them, at the Wareroom on the corner of Carlisle and Railroad streets, opposite the depot.

Also, on hand a full assortment of the best varieties of COOKING STOVES, including the Spear, Noble Cook, Waverly, Oriental, Washing, Barley Sheaf, Prince Royal, Royal Cook, Excelsior, &c. &c., all WARRANTED to be good bakers. If not satisfactory, they can be returned and the money refunded. Also, a large assortment of Hollow Ware and Tin Ware, Doty's Washing Machine and Universal Wringer. Call and examine. tf

A Fine Head of Hair is such an indispensable adjunct to beauty that no one who prizes good looks should neglect to use the best preparations to be had to increase its growth, restore its color or prevent its falling off. Ring's Vegetable Ambrosia is one of the most effectual articles for the purpose we have ever seen, besides being one of the most delightful hair dressings and beautifiers extant. It is free from the stinky and gummy properties of most other dressings, and being delightfully perfumed recommends itself to every lady or gentleman using fine toilet articles. Nov. 27. it

Now Is The Time.—Housekeepers can economize by laying in their winter coal at once, as freights are now lower than they will be a month hence, and Coal will necessarily rise. Persons desiring to have money, will do well to call at once on Col. C. H. Buehler, who is prepared to furnish all kinds of Stove, Blacksmith and Lime-burner's Coal at lowest market prices. tf

A Town Entered and Sacked.—Murder of Citizens.

MEMPHIS, Nov. 28.—The *Appeal's* Arkansas correspondent says: "On the 30th instant, a body of two hundred men, claiming to be (Radical State) Militia, entered the town at Centre Point, Sevier county, arrested all the inhabitants, marched them into an open field, placed a guard over them and then proceeded to sack the town, after which they left."

The next day the citizens of an adjoining county flocked into the town and a meeting was gotten up to express the sentiments of the people in regard to the outrage. While the meeting was in progress the same body of men dashed into the town and opened an indiscriminate fire upon the assembly, shooting down a number of them and arresting three of the oldest and best citizens, named Hesber, Anderson and Gilbert, and carried them out into a field and shot them. The band of desperadoes still hold the town.

NASHVILLE, November 24.—Very grave matters are engaging the attention of the Radical Tennessee Legislature, as may be judged by the character of some bills introduced to-day, and which passed their first reading. One bill is for the benefit of Mrs Granville Lindsay and others, and provides—First, that said Mrs. Lindsay shall receive seventy-five dollars annually in consideration of recently giving birth to three children at one confinement; and, secondly, providing for a like annuity to all other Tennessee women who shall in future be equally prolific. In its present shape the bill does not discriminate in favor of "loyal" mothers, but it is well understood that before its final passage a clause will be added peremptorily debarring "rebels" from any participation in its benefits and embracing colored matrons in its beneficial provisions.

The bill was introduced in good faith and is likely to pass.

Another bill was passed, providing that no lawyers except those who gain the cases they may be engaged in, shall be entitled to receive any fees whatever. This is now on its third reading in the House, but will be stoutly opposed in the Senate.

TESTIMONIAL.

Philadelphia, March 10th, 1868.

JACOB SCHEETZ, Esq.—My head ached some eight months ago, which resulted from nervous prostration, the result of excessive and overtasked energies. I was induced by you (in a friendly way) to make us take your celebrated Bitter Cordial; and so thoroughly surprising have been its beneficial effects, that I cannot refrain from thus bearing testimony in its favor. As a beverage, it is a pleasant and delightful as a glass of rich dark brown sherry; as an appetizer before meals, perfectly magical; and as a digester of food, the most potent compound I ever knew. Altogether, I consider it one of the happiest combinations of medicinal herbs ever offered to the public as a curative. I most cheerfully and confidentially recommend it to every sufferer from Debility, Dyspepsia and Rheumatism. As a substitute for the villainous alcoholic and vinous concoctions imbibed at the many of the public bars of the present day, it must also prove a blessing.

Very truly yours,

ALEXANDER W. BLACKBURN,
Fire Marshal.

REAL & PERSONAL PROPERTY SALE, INCLUDING A VALUABLE HOTEL STAND, IN LITTLESTOWN.

ON SATURDAY, the 19th day of DECEMBER next, the undersigned, Assignees for the benefit of creditors of John Green and Wife, will offer at Public Sale, on the premises, the Real Estate of said Assignors, consisting of the following:

NO. 1. THE HOTEL STAND,

situate in Gettysburg street, fronting near the Public Square, in the Borough of Littlestown, adjoining Yantis & Stover on the west, and Daniel Crouse on the north. The HOTEL BUILDING is frame weatherboarded, two-stories high, with back-building, the whole containing, and well adapted for the business. There is large stabling attached to the House; also Wash House, Smoke House and Wood House, with never-failing excellent wells of water, one in front and the other in the yard, near the kitchen door. There is also on the lot a cistern.

BRICK DWELLING HOUSE—beside a variety of choice fruit trees. The stand has a good run of profitable custom, and should attract the attention of all desiring to engage in the Hotel business. Such an opportunity to purchase is not often presented.

NO. 2. A LOT OF GROUND,

opposite the Hotel, adjoining the Widow Lansinger on the south and the Assignors on the north, having thereon a Two story Frame Weatherboarded DWELLING HOUSE, 2 NEW SHOPS, Hog Pen, and other outbuildings, with a never-failing well of water in the yard.

NO. 3. TWO BUILDING LOTS,

nearly opposite the Hotel, each 60 feet front and running back to a street. These are both eligible locations for store houses in the town.

Also, at the same time and place, will be sold the following personal property, viz:

1 MILLE, 1 Box, 2 Grey Horses, 1 Wm Harrison, Hooks and Chains, Forests, Forks, Shovels, Rakes; about 3 tons of good Timothy Hay, 2 tons of Second Crop Hay, a quantity of Oats, Quantity of Hay by the Stack, 5 loads of Sand, 1 Plank, 2 Sets of Beds and Bedsteads, Chairs, Looking Glass, Clock, Table Covers, Wash Stands, Bowls and Pitchers, a lot of Kegs, Ash Hoppit, lot of Segars, and a variety of other articles, too numerous to mention.

Sale to commence at 10 o'clock, A. M., on said day, when attendance will be given and terms made known by

G. B. YANTIS,

PAINT YOUR BLOOD!

LONDON

BLOOD PANACEA.

The Great Alterative and Blood Purifier.

It is the most perfect vegetable compound of Sarsaparilla, Stillingia, Iodine and Iron known to the world, making it the most effective, invigorating, restorative and blood cleansing combination known to the world.

For the cure of Scrofula or Kings Evil, Cutaneous Diseases, Erysipelas, Boils, Pimples and Blotches on the Face, Sore Eyes, Scald Head, Tetter or Scaldings, Old and Stubborn Ulcers, Rheumatic Disorders, Yellow Jaundice, Salt Rheum, White Swellings, Mercurial Diseases, General Debility, Palpitation and Fluttering at the Heart, Consumption, Asthma, Syphilis and Syphilitic Affections, Inflammation of the Bladder and Kidneys, Pains in the Back, Dropsy, Female Complaints, &c. To the broken down female it gives life and energy in restoring the lost powers of nature, when health again succeeds the feeble form and pallid cheek of the suffering victim.

Nothing can be more surprising than its invigorating effects on the human system. Persons all weakness and lassitude, by using the PANACEA, will soon become robust and full of energy under its influence.

Ladies who have pale complexions and are dark about the eyes, Blotches and pimples on the face, rough skin or freckles, and are "out of spirits," should use a bottle or two of LONDON BLOOD PANACEA, as it will cleanse our blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits and a beautiful complexion. Try it.

NEW COACH SHOPS.

YANTIS, ADAMS & CO.,

LITTLESTOWN, PA.

WE take this method of informing the public that we have established new Coach Sh

Farming and Housekeeping.

A BEAUTIFUL PICTURE.

The man who stands upon his own soil, who feels that by the laws of the land in which he lives—by the laws of Rightivilized nations—he is the rightful and exclusive owner of the land he tills, is, by the constitution of his nature, under a wholesome influence not easily imbibed from any other source.—He feels, other things being equal, more strongly than another the character of man as the lord of an animate world. Like—Of this great and wonderful sphere which, fashioned by the hand of God, and upheld by His power, is rolling through the heavens, a part is his—his from the centre to the sky. It is the fragment on which the generation before him moved its round of duties, and he feels himself connected by a link with those who follow, and to whom he is to transmit a home.

Perhaps his farm has come down to him from his fathers. They have gone to their last home; but he can trace their footsteps over the scenes of their daily labors. The roof which sheltered him was reared by those to whom he owes his blessing. Some interesting domestic tradition is connected with every enclosure. The favorite fruit was planted by his father's hand. He sported in boyhood beside the brook which still winds through the meadow. There lies the path to the village of earlier days. The still hears from the window the voice of the Sabbath bell which called him and his father to the house of God; and near at hand is the spot where his parents laid down to rest, and where, when his time has come, he shall be laid by his children. These are the feelings of the owner of the soil. Words cannot paint them; they flow out of the deepest fountains of the heart; they are the life spring of a rich, fresh, healthy and national character.

PRESERVING POTATOES.

If grown in a lime soil, with some fertilizer containing lime, as wood ashes, or some compost of which lime is a part, in the hill, we have them in perfection. What folly not to preserve them in the same perfection, through the heavens, a part is his—his from the centre to the sky. It is the next year's crop is ready to take their place, if this can be done. But can it? Yes.

How? Look at an often-observed fact, and you will have the secret. When a tuber is left in the soil over winter, if not too near the surface, where it will freeze and thaw too many times, it is always found, when ploughed out in spring, in a fine state of preservation—not wilted—sound and as hard as in autumn—cracks open in boiling—has all the mealiness and fine flavor of the previous October—in short, has retained all its fine qualities unchanged from October to May. It is always so with tubers thus wintered, as thousands have observed.

Now let us look at the attendant conditions in which these tubers have been so finely preserved. They were not sunned. Some think it well to let potatoes lie under a scathing September or October sun five or six hours before storing them. They could hardly do a thing more calculated to hasten deterioration. Every moment of sunshine on potatoes, when harvested, injures them. They were not aired, for being left in a soil compacted by the fall rains, little air could circulate among them. They were in total darkness all winter. They were moist by reason of the fall, winter and spring rains and melting snows. They were cool, nearly to the freezing point, and sometimes below it. They have then, coolness, moisture, darkness, little air and no sun as the attending circumstances or conditions of their perfect preservation. If this does not teach us a lesson, it is because we are not quick to learn.

But there is another fact, tending to the same conclusion. There are farmers who, for a long series of years, have practiced as follows: dig their potatoes late, carry them at once to the house, dump them through a side window into the cellar, with all the soil that naturally attaches to them, and then let them be till wanted for use, a part of them as late as the following June, taking care to keep the cellar windows open fall and spring, and to open them in mild weather during the whole winter.

It happens that those which fall near the window retain most of the moist soil that fall, with them, and are almost as completely imbedded in earth as are the stray tubers left in the field till the spring ploughing. Now if that portion of the year's stock which is thus imbedded in the moist soil be left to the last, these are found by many years' experience to remain fresh and good, hardly at all wilted; eyes hardly sweiled till about the first of June. This implies a cold and damp cellar; and when these points can be obtained there is not the least difficulty in a perfect preservation of the potato till as late as from the 1st *to the 15th of June. The conditions,* if we look at them, will be found to be nearly the same as in the other case—no sun, little air, little light, moisture, coolness.

Now it cannot be necessary to describe minutely how these conditions can be secured for the potatoes you would preserve, in all their autumnal excellence, for spring and summer use. Let every one devise the best method for his own case. One who has a cool, damp cellar, so fitted with windows that he can easily keep the temperature low at all seasons, may find that the best place to pack away potatoes for spring and summer use. Another may find it better, in his case, to bury them, mixed with moist soil, in the earth. By throwing an extra quantity of straw over them in winter, and so covering them with straw or chaff that the sun will not thaw it till late, he *may* preserve them almost at pleasure; for so long as the ground in which they are imbedded is kept cold, they will neither grow nor wilt, nor will they lose any of the fine qualities they had the previous autumn. If the potato hole were on the north side of a building, or if a temporary structure of rough boards were placed over it to keep off the sun, either of these would be a help. I will only add that if those who have a fine crop of potatoes will devise some way to protect them from the sun, air and light, from the moment they are dug, and to keep as many of them as are designed for spring and summer use cool and moist till the day they are to be cooked, "they will find their account in it."—*Prof. J. A. Nash.*

QUILP, who has heretofore been a Universalist, now believes there are two things declined to be eternally lost—his umbrella and the man who stole it.

NATURE AND USE OF PLASTER.

The question is often asked among farmers of what use is plaster? When, where and how should it be used? And *it is seldom that a satisfactory* answer is given them. Nearly every farmer who had made any application of plaster had found it serviceable at one time, but without profitable returns at another. Not one in a hundred knows the reason for success or failure.

Most people found the application to clover attended generally with good results; some found it good sometimes for potatoes; but not a single one could tell what is plaster good for? Chemistry solves the question: Plaster is a sulphate of lime. To different branches of science it is known by different names. In the arts it is plaster; in mineralogy it is gypsum; in chemistry it is *sulphate of lime. It is sul*phuric acid and lime. Sulphuric acid has an affinity for ammonia, and when it finds ammonia it breaks up its partnership with the lime and combines with the ammonia, forming sulphate of ammonia, and this is non-volatile. The lime finds a companion, when deserted by the acid, in carbonic acid, forming carbonate of lime.

Hence it will be seen that when the farmer has ammonia in his soil, put there himself in manure, or in any other manner, liable to waste, the plaster will fix it there, and in all such cases it can be applied to the ground with profit. The odor about stables and manure heaps is escaping ammonia, and the farmer can judiciously use a little plaster in both such cases, saving ammonia for his land.

Plaster saves to the soil nitrogen, one of the chief mineral agents entering into the growth of plants; ammonia is three parts hydrogen and one part nitrogen. Ammonia escapes from decaying vegetation wherever it is found, and is suspended in the air, and when after a long dry spell and considerable quantities of it have ascended, the first rain brings it to the earth, and if there is a little plaster in the clover field the ammonia never rises again.

This very study in the uses of plaster shows that *the farmer should* be a student, and in some degree a man of science. He must learn that in doctoring his soil, something else than mineral substances are needed. He may need organic substances as well, and to know this is the duty of the farmer. But it is well to have explained the nature and uses of plaster, so that whoever reads may know when its application may be serviceable.

USEFUL HINTS.

New milch cows should be carded daily. They like it and, it pays.

The potato is a great absorber of potash. Therefore wood ashes are a good manure for it.

Put a few live fish into wells, if angle worms infest them.

If the roots of trees are dipped into water just before planting, the earth that sticks to them will give immediate support to the small fibers.

John Johnson says that farmers must give special attention to sheep and cattle keeping if they want to make grain growing more profitable.

Some one says if salt is kept before a horse in a stable, he will not gnaw his manger. Trial will tell.

Root crops, not grain, are the thing for young orchards. They do not steal so much true food.

Toads are capital *helpers* in taking care of vine patches.

Experiments seem to prove that fence posts set up the reverse way from which they grew, will last much the longer.

PROFITS OF FARMING.—If the average profits of farming are less than five per cent., it does not follow that the same men would do better by changing their business. There is more unskilled labor on the farm than in any other calling, and that kind of labor has a hard time in any business. An exchange, with respect to this subject, states that if some men make but two per cent. by farming, others make eight on their capital and furnish themselves and their sons with remunerative employment all the while, which is one of the great advantages of farming. The remedy of unsuccessful farming is not a change of business, but a change of policy. Knowledge and skill pay as well on the farm as in the workshop or counting room.

PREPARE.—The weather prophets are, as usual at this time of the year, busy in their observation of omens indicating a severe winter. Lay in a good supply of fuel, provisions and clothing; protect your small fruit, *shrubbery, grape vines, &c.* See that proper arrangements are made for the comfort of your stock—and then you are prepared for any kind of winter that may be in store. Always prepare for the most severe winter, and you will be sure to come out right in the spring.

AN exchange says: Feed is so scarce in some parts of Ohio that farmers are selling off their stock at remarkably low figures. Sheep are being slaughtered for their pelts by the thousand. Five thousand two hundred and fifty sheep were sold at Cleveland last week for $472.50, or five cents per head, the seller retaining the hides, and the purchaser slaughtering the animals. Carcasses of sheep all ready for delivery are sold at the astonishingly low figures of forty to sixty cents each.

IN a Sunday-school not long since, while the children were passing through a review of the life of the Savior, the question was asked, "Where was Jesus taken when he was arrested in the garden?" A little miss answered immediately, "To the station-house." The teacher remarked that there were no station-houses at that time, when the juvenile corrected herself by saying, "I meant the State Prison."—*Boston Transcript.*

THE Yankees take advantage of the cannibal propensities of the rats. A clever Yankee, being much troubled with rats, and being determined to get rid of them, tried every possible plan, but without success. At last he got a lot of rats and shut them in a single cage; they devoured one another till only a single one was left. He then turned this one loose, when, excited with the blood of his fellow rats, and having become a genuine cannibal, it killed and ate all the rats it could find on the premises.

A REMARKABLE FOWL.—"Waiter, is this a spring chicken? Most remarkable fowl I ever attempted an assault upon." "Yes, sir; nice spring chicken; nothing else at this establishment. Don't you see, sir, it springs every time you try to put a knife into it?" Customer realises the sad fact; and after a half-hour's *futile* exercise on the knife and fork, calls for a plate of hash.

McGUIRE'S

SPANISH HAIR DRESSER,

FOR Promoting the Growth, Beautifying the Hair, and rendering it dark and glossy. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The use of this oil as a hair dresser has been universal in every section of the country in the Spanish Main for centuries. No preparation of art could give that silken luxuriance and abundance of tresses which have been the admiration and wonder of travelers in Spain. This oil is highly and delicately perfumed, *forming an article unri*valled in excellence and upon which the Spanish people for many years have set its seal of enduring approval.

McGUIRE'S

Mexican Wild Flowers Shampoo Lotion,

For removing dandruff and scurf from the head, whitening and perfuming the skin. This article is entirely different from anything of the kind ever offered in this country, and is warranted free from all poisonous substances. This valuable lotion was used by the Emperor Maximilian, and Empress Carlotta, of Mexico, and universally used by Mexicans for three hundred years. As a wash for the head—it is cooling, cleansing, and refreshing. When thus used it at once relieves headache.

McGUIRE'S

Wild Flowers for the Teeth.

All those who are in favor of white teeth and a pleasant and perfumed breath, should at once use McGuire's Wild Flowers for the Teeth. AYER'S

HAIR VIGOR,

For the Renovation of the Hair.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color and the gloss and freshness of youth.* Thin hair is thickened, falling hair checked and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich g'ossy lustre and a grateful perfume.
